DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-2, 4-6 and 9 are rejected under 35 U.S.C. 102(b) as being anticipated by Hunt et al. (U.S. Patent 5,410,992).

Hunt et al. discloses a fan shroud with a first portion (18) and a second portion (22), said second portion movable relative the first portion (col. 2 lines 52-60).

Regarding claim 2, Hunt et al. discloses the first portion and the second portion comprise a barrel portion that extends from a rectilinear shroud (figure 4, 16).

Regarding claim 4, Hunt et al. discloses the first and second portions are substantially cylindrical (figure 4).

Regarding claim 5, Hunt et al. discloses the first portion and the second portion have a barrel portion which extends from a rectilinear shroud portion, the second portion movable at least partially within the rectilinear shroud (illustrated in figures 2 and 3).

Regarding claim 6, Hunt et al. discloses a rectilinear shroud portion (16) and a barrel portion extending from said rectilinear shroud portion the barrel portion having a first barrel portion (18) and a second barrel portion (22), the second barrel portion movable relative the first barrel portion (col. 2 lines 52-60).

Regarding claim 9, Hunt et al. discloses a movable second portion of a fan shroud relative a first portion of the fan shroud for use in a vehicle engine compartment and the second portion of the shroud can be moved relative to the first portion while in the vehicle (illustrated in figures 2 and 3).

Claims 1 and 3 are rejected under 35 U.S.C. 102(b) as being anticipated by Hiraoka et al. (U.S. Patent 4,353,680).

Hiraoaka discloses a shroud with a first portion (1) and a second portion (6) movable relative said first portion (shutter blades 6 pivot relative to case 1).

Regarding claim 3, Hiraoaka et al. discloses the first portion comprises a pivot pin and the second portion comprises a pivot pin aperture to receive the pivot pin (circular pivot points are shown at the top of each shutter (6) in figure 1).

Allowable Subject Matter

Claims 7-8 and 10-13 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Prior Art

The patent to Shimokawabe (U.S. Patent 4,741,669) was cited for its teaching of a rectilinear vehicle shroud which has a first and second barrel portion movable to one another.
